

TAKTIKA-WARFARE

TFG SUITES EDITOR SYSTEM

SUMMARY

Using this system, a variety of basic tactical types of joint operations can be simulated, as well as the tactical actions of the joint operations. Using this system, students will be able to conduct training with tactical visualizations that are based on real-time battle situations, so that their ability to effectively learn basic tactical skills can be further enhanced.

TAKTIKA-WARFARE

STRATEGIC ARMY WARGAME SOFTWARE LICENSE

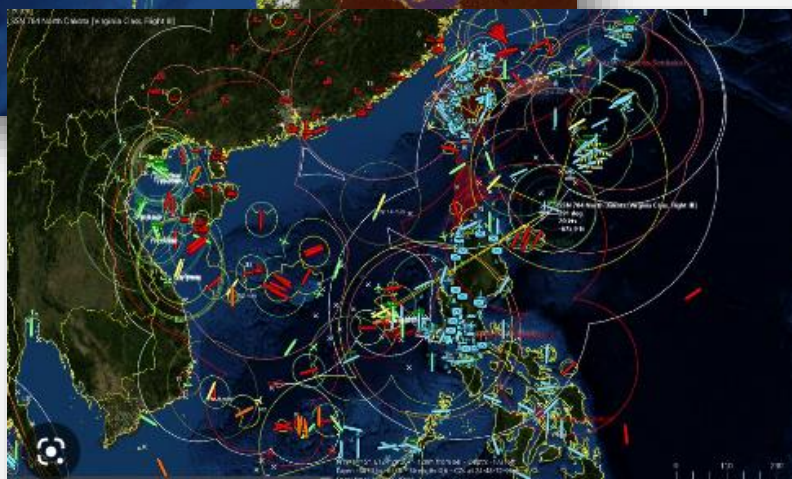

FEATURES / FUNCTION

Tests and simulations of Course of Action (CoA) are carried out to determine the best Course of Action (CoA) to use

Before being simulated on a TFG device, this tool can be used as a mini-training tool for TFG

Setting up strategic training scenarios

The ability to plan scenarios based on basic data is essential
