

Snort, Suricata, & Syslog Intrusion Detection, Interface and Management

Recognized as the **best performing** and **most comprehensive** Snort and Syslog Intrusion Detection, Correlation, and Threat Management console on the market, u2platform was originally developed in 2003 under the name Aanval and is currently the longest running Snort GUI/interface under continuous development.

u2platform is the perfect fit for your intrusion detection needs regardless of your organization size, budget, and event capacity requirements. Full integration with Snort, Suricata, and Syslog sourced data, u2platform is the only snort console, interface / GUI on the market in its class.
